This 1990 duplex home is truly stunning. With its fully renovated state six years ago, it is a home you can move into without any worries. With 3 bedrooms and 2 bathrooms, there is plenty of room for a family or guests. The spacious kitchen is a place where you will enjoy preparing the tastiest meals. The kitchen offers enough space to store all the essentials and there is enough work space to prepare the dishes properly. The communal pool is a real delight where you can relax in peace during the hot days. The pool is very well maintained and offers the real holiday feeling. The house is equipped with solar panels, so you not only enjoy the sun, but also save considerably on the electricity bill. In short, this complete house is as good as ready to move in and offers everything you need to live and enjoy comfortably and, of course, also very suitable as a holiday home. It is a very nice house where you can live with pride and where you will make many beautiful memories.
