This nice flat in Guardamar del Segura was originally a 3-bedroom flat. However, the owners have chosen to add 1 bedroom to the living room, making it spacious by Spanish standards. Of course, if you would like to have 3 bedrooms, this can also be achieved by adding a wall in between. Of the 2 bathrooms, 1 is now also used as a storage room. This can also easily be used as a bathroom again as all connections are still present. A flat with possibilities. And then you can also enjoy the communal swimming pool which provides plenty of cooling during the hot summer months.
